

A secure location for temporary storage

Mobile and versatile in use, laptop computers are becoming increasingly commonplace in the workplace and at school. However, their portability brings its own security problem - theft of unattended laptops can be easy and is a real concern.

OPTIONAL SECURITY STRAP

For added security a full length steel strap is available to cover the locks. This is secured by a padlock fitting (not supplied) to the front face of the locker. When not in use the strap is 'parked' on the right or left side of the locker as preferred. (default is the left side - please state the right side if required when ordering).

Strengthened door brings added security

Secure Computer Storage

Features

BioCote Protection

We offer the patent-protected BioCote anti-bacterial finish as standard on all internal and external surfaces. BioCote inhibits the growth of potentially dangerous bacteria and fungi, such as Salmonella, MRSA and E. Coli.

Lockers are available in 3 types:

- **15 compartments with 15 doors**
- **15 compartments with 1 door**
(15 compartment lockers accept laptops without carry cases).
- **10 compartment with 10 doors**
(capable of storing laptops with carry cases).
- **3 point locking mechanism for single door unit**
- **Robust, all-steel construction.**
- **15 compartment lockers have a compact 'footprint' of only 381 x 457mm.**
(10 person unit is 457 x 457mm)
- **Alternative of ASSA deadlock fitting for extra security.**
- **Accessible 1778mm overall height.**
- **Lockers can be fitted with sloping tops, to prevent litter being left on top of lockers and to make cleaning easier.**

OPTIONAL EXTRAS

- **Full length security strap enclosing all lock barrels.**
- **Steel anchor plates to fix cabinet to wall.**

15 compartments, each with its own key, 90mm high x 285mm wide x 425mm deep.

10 compartments, each with its own key, 175mm high x 360mm wide x 425mm deep.

15 compartments with 1 door 90mm high x 285mm wide x 425mm deep.
